

Sarah Schmidt Joins CP Engineers & Architecture as Company Administrator

Posted on March 3, 2014 by admin in People in the News, Press Releases // 0 Comments

SPARTA – CP Engineers & Architecture is pleased to announce that Sussex resident Sarah Schmidt has joined the firm as a company administrator.

Schmidt brings a wide range of experience to her new position in the areas of sales, customer service, office-based financial programs, proposal construction and word processing systems.

Prior to her tenure at CP Engineers & Architecture, Schmidt was employed with companies including SignStorey and CBS Outernet, a division of CBS Outdoor. CBS Outdoor is one of the largest resources of billboard, digital and specialty advertising in North America. Working in that field permitted Schmidt the opportunity to develop her own sales territory and build her sales track record.

Schmidt has become a valuable member of the team due to her strong interpersonal skills and ability to easily build rapport with clients and the firm's staff.

"Since joining CP Engineers & Architecture, Sarah has been a tremendous help to the organization. We are excited to have her as a part of the CPE&A organization and family and know that our employees and customers will all benefit from working with her," said Ray Roggero, one of the firm's Managing Partners.
