## Ground Broken for LAN & CP Collaborative Design of Lyndhurst Junior High School

**Lyndhurst, NJ – October 11, 2016** – The Board of Commissioners of the Township of Lyndhurst conducted a groundbreaking ceremony with the Board of Education for the new Lyndhurst Junior High School on October 11, 2016 at 4:30 PM at Matera Field. Preliminary designs for the school were provided by local architecture and engineering firms LAN Associates and CP Professional services, in collaboration with two other architecture firms.

The new Lyndhurst Junior High School will serve the 7th, 8th and 9th grades, and provide relief and expansion opportunities to the existing high school and elementary schools. The approximately 110,000 square foot Junior High School will include a three story academic wing, a visual and performing arts theater, and a full size gymnasium with auxiliary gym, locker rooms, weight room and an athletic field. The academic facilities will include a state-of-the-art culinary arts facility and active learning classrooms. It will also provide for instruction in Science, Technology, Engineering and Math (STEM).

Additional project highlights include a 21st century pedagogy, where students learn from doing rather than listening. The new facility proposes flexible classroom spaces where the teacher can rearrange furniture to adapt to their lesson plans. Desks and chairs can be moved together to form learning lab tables or informal gathering areas. The design takes daylighting strategies into consideration, where natural light is seen throughout the majority of classrooms and corridors.

The new Lyndhurst Junior High School, a \$50M project, is part of the Township's campaign on Renewing our Schools and Community with a Dedication to Excellence. The new Junior High School replaces the 130-year-old Lincoln School as part of the redevelopment of Township facilities.

*LAN Associates is a full service engineering, planning, architecture, and surveying firm that services federal, state, county, and municipal governments, housing authorities, boards of education, Fortune 500 companies, religious facilities and private clients. The firm was founded in 1965, and is based in Midland Park, NJ, with a second location in Goshen, NY, and a satellite office in Trumbull, CT.*

*CP PROFESSIONAL SERVICES has been the firm of choice for public and private Clients for more than 30 years. Initially organized in 1983 and founded on professional excellence, hard work and integrity, CP is proud of its long history of client service and its consistent ability to meet tough challenges in engineering, architecture, environmental and applied science, and quality & compliance consulting. Providing seasoned judgement, quality service, technical skill, vision, and resourcefulness, CP remains committed to achieving goals in step with the market and in harmony with the environment. CP is a privately held multi-discipline consulting firm, headquartered in Sparta, NJ with offices in Florham Park, NJ and San Diego, CA.*
