FOR IMMEDIATE RELEASE:

***CP Professional Services Supports Will McHugh giving back through Growth International Volunteer Excursions***

*Sparta, New Jersey, October 3, 2016* - Although he is just finishing his post-graduate College education, Will McHugh is already making a big difference in the lives of those who do not have clean drinking water and sanitary wastewater facilities.

Will McHugh is a 22 year old Sparta resident who is currently pursuing his Master's Degree in Environmental Engineering at Virginia Tech. He chose Environmental Engineering because of his love of nature and the outdoors and his strong desire to have an impact on those around him. Will is supporting an organization called Growth International Volunteer Excursions (GIVE) to build the necessary infrastructure to provide safe drinking water and sanitary facilities to a village in Tanzania. He will be travelling there this winter to work on the project.

Will has been a member of our staff throughout his college career and we are supporting him. We welcome others to support him as well. Financial support can be provided through the following website: [https://www.volunteerforever.com/volunteer\\_profile/will-mchugh](https://www.volunteerforever.com/volunteer_profile/will-mchugh)

Water resources is one of CP's areas of practice. As such, we understand the importance of safe and plentiful clean water. However, as Will stated, "This infrastructure is all too often taken for granted in fully developed countries, but many in the world do not have access to clean drinking water. A plentiful supply of clean drinking water will increase their quality of life".

Will has interned at CP for several years and has been a valuable team member on several important projects. Most notably, Will was instrumental in the construction phase of a \$10 million Water Reclamation Facility, which is now helping to maintain water quality in the Delaware River basin, a source of drinking water to 15 million people.

#### ABOUT CP PROFESSIONAL SERVICES

CP PROFESSIONAL SERVICES (CP) has been the firm of choice for public and private Clients for more than 30 years. Initially organized in 1983 and founded on professional excellence, hard work and integrity, CP is proud of its long history of client service and its consistent ability to meet tough challenges in engineering, architecture, environmental and applied science, and quality & compliance consulting.
